Subject: Case No. 2012-32118; Objection to Petition

This correspondence represents my formal objection in reference to the above-mentioned case. I have an acknowledged claim with the *City of Stockton* for lost of personal property confiscated during my arrest on October 5, 2011. My *claim # is 11-141-2400*.

The requested amount of reimbursement is **\$2,723.12** supported by sales receipts, estimates and insurance premiums submitted to Mr. Steven J. Hunt, City Investigator. On March 27, 2012 I was offered **\$460.00** in settlement of this claim. In response on April 1, 2012 I made an inquiry as to this amount. Because my driver's license and keys to both my vehicle and home were lost by Officer Guthrie, I included these replacement costs in my claim and there was no consideration given.

As of April 1, 2012 and to date there has not been any further correspondence regarding my claim. I therefore respectfully submit this **"Objection to Petition"** on behalf of my claim with the City of Stockton.
