Below is a checklist of items that are typically required for a new commercial development project. This checklist should be used as a guide to ensure that you provide a complete permit submittal, not all items may be applicable to your project, additional items may be requested as needed based on the project scope. Providing a complete submittal is critical to receiving a thorough plan review and expediting the permitting process.

### Planning Division Permits:

Prior to providing a submittal for building permit plan review, most new development projects require separate permit(s) from the Planning Division. For more information, please contact the Planning Division at (209) 937-8266. Please indicate the status of your Planning Division permits:

- Completed     In-Progress
