

FACT SHEET WILSON WAY CORRIDOR ADAPTIVE TRAFFIC CONTROL SYSTEM

Project Description:

This inter-jurisdictional project with Caltrans District 10 will install an adaptive traffic control system along Wilson Way from Waterloo Road to Anderson Street. The project will install traffic loops, cabinets, controllers, and cameras at ten signalized intersections; two of the signals are maintained by Caltrans, and eight are maintained by the City. The signals will be integrated, via ethernet over-fiber, into a centralized adaptive traffic control system. The project is federally funded from the Congestion Management and Air Quality Program.

Project Schedule:

Complete Design	Completed
Start Construction	January 2015
Complete Construction	October 2015

Project Cost:

Design/Environmental	\$ 180,000
Construction	\$ 1,154,000
Construction Management/Administration	\$ 44,000
TOTAL COST	\$ 1,378,000

Project Funding:

CMAQ (88.5%)	\$ 1,219,000
PFF Air Quality (11.5%)	\$ 159,000
TOTAL FUNDING	\$ 1,378,000
