

**Rizvi Campaign  
Stockton City Council – District 2  
Ballot Statement**

**Ballot Designation: Technology Supervisor/Businessman**

I'm running for City Council because I love Stockton and want to make it better. As your Councilmember, I will work to ensure the needs of Stockton residents come first. I have lived here for over 20 years and attended Delta College where I was Student Body President. I graduated from the University of the Pacific with a degree in Business Administration and a concentration in Management Information Systems. I got married here and am raising my two young children in our community.

I work as a computer technology supervisor for San Joaquin County and understand the importance of bringing innovation to government so Stockton residents can have greater access and input in how our city is run. Using modern technology, we can make our city safer by expanding programs like ShotSpotter that detects gunfire in high crime neighborhoods. It can also make government more accountable, transparent, user-friendly and responsive to the needs of the community so all residents can participate in the decision-making process.

By improving our educational system, offering greater career training pathways and through improved marketing and outreach, we can bring more high tech jobs to our community to improve the quality of life for all Stockton residents.
