

**DAN WRIGHT**

**AGE: 57**

**Occupation: Appointed Councilmember/Principal**

**My education and qualifications are:** I fell in love with Stockton when my wife and I moved here over twenty years ago to raise our children. It's my sincere goal to make our city a better place for future generations.

Public service is a responsibility that I take seriously. Addressing the social needs and economic growth of our city is an honor and a privilege.

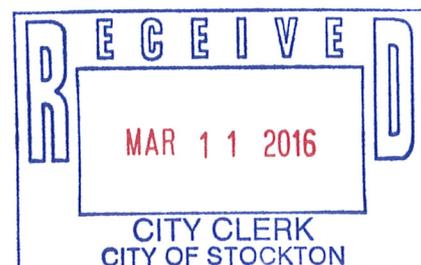

My experience as a school administrator has taught me how to set priorities, balance budgets, and listen to the needs of people around me in order to accomplish goals.

As a Councilmember for the past two years, I have accomplished several positive initiatives in a city emerging from dark chapters in its civic history. I am proud to be a part of that forward change.

For Stockton to thrive we must foster an environment that helps existing businesses prosper, attracts new businesses, creates family wage jobs, maintains the city's fragile finances, and improves public safety.

I will continue to be a voice of independence and reason; drawing on my skills as a professional, my experience as a school principal, and my love of Stockton.

I would be honored to have your trust, your support and your vote this election.
