Drop-In or By Appointment Office Hours to Discuss Land Use Updates *General Plan and Zoning Changes to Address Land Use Inconsistencies*

STOCKTON, Calif. – The City of Stockton Community Development Department is offering drop-in or by appointment office hours to review and discuss proposed land use and zoning changes. Property owners impacted by these changes and members of the community are encouraged to visit the Permit Center, 345 N. El Dorado St., on Tuesdays or Thursdays between the hours of 10:00 a.m. and 1:00 p.m., to learn more about these changes. Office hours will be offered through September. To schedule an appointment or submit questions, email zoningupdate@Stocktonca.gov or call (209) 937-7220.

The City of Stockton General Plan was adopted on December 4, 2018. The General Plan determines how and where the City will grow and identifies zoning consistent with the plan for growth and delivery of City services. Following the adoption of the General Plan, the City must resolve any land use inconsistencies and rezone parcels consistent with the General Plan. On March 9, the Stockton City Council approved the first series of updates to 724 parcels, referred to as Series 1. After additional research and analysis, the City is now entering the next phase of the project, which will consider zoning changed in Series 2. Proposed changes are displayed using an interactive Land Use Inconsistency Search Tool and map available at www.stocktonca.gov/zoningupdates.
